

Quality assurance in translation

Project evaluation

Your documents are reviewed by one of our project managers, who will determine cost and delivery deadlines.

Pre-translation preparation

Your documents are formatted to make them easier to work with for translation.

Glossary creation

Glossaries help standardize our work and maintain linguistic consistency from project to project in the context of long-term collaborations.

Translation

All our translators work exclusively into their native languages, ensuring greater linguistic and cultural fluency and sensitivity.

Layout

Translated documents are formatted to match your requirements, as specified in the quote.

Proofreading

Our translations are always proofread once by one of our experts in your field, under a confidentiality agreement, and a second time by one of our project managers.

Delivery

The project manager handling your project sends you your translations. These are AFNOR NF En 1538 certified, the highest quality standard for technical translations.

Confidentiality is
at the heart of our collaborations!

Alltradis

Alltradis is now a key player in the translation and conference interpreting markets.

With over 20 years of experience, gained through the written translation of more than 30,000 multilingual projects and simultaneous interpreting at major international conferences, we are now recognized as a benchmark for quality in several fields!
